

Greetings to Everyone,

The TMI Group of Companies has released a new brochure on the TS-4 Heat Sealer. We recently added some new features to the TS-4 Heat Sealer. The unit was previously available only with fixed seal jaws. We will now offer the unit with interchangeable jaws based on the information below.

Originally, the TS-4 was a special design order for a customer who was ordering 15 units. We have simply added options to this unit based on our general customer's requests.

Listings of new options are as follows:

TS-4 Digital Heat Sealer- ISJ (interchangeable seal jaws) 120V or 230V

- One set of quick-change upper and lower seal jaws 1 x 4 inch (steel-dyclad coated), other sizes available, please specify
- One upper quick-change steel jaw (dyclad coated) and one lower quick-change (polymer) seal jaw 1 x 4 inch
- One set of quick-change upper and lower seal jaws with special pattern-please specify
- Optional selectable on/off switch for lower temperature controller
