

For Immediate Release

## **TMI GROUP INTRODUCES NEW TENSILE TESTER**

October 16, 2009- Ronkonkoma, NY

The TMI Group of Companies, a global leader in providing laboratory testing solutions is pleased to introduce our new Model 84-76 Tensile tester designed to test strength of sheet materials including Paper, Board, Tissue Paper, Film Packaging Seals, Adhesives, Pressure Sensitive Tapes and a variety of low force tensile applications up to 1330 N (136 Kg, 300 lbs).

The NEW Model 84-76 Tensile Tester is a robust, precision, tensile strength instrument suitable for rugged production environments yet designed to provide highly accurate measurements for research applications. The instrument has a small footprint just over 90 square cm (14 square inches) and features a large 5.7 inch color display, intuitive operator interface, software control, integrated printer & serial port for data collection.

The TMI Group of Companies, Ronkonkoma, NY, USA, is a global organization that provides laboratory testing solutions to measure quality of materials and consumer products for a variety of industries including packaging films, paper, pulp, plastics, adhesives, foil, inks, coatings, nonwoven, textile and corrugated industries. The TMI Group of Companies includes Testing Machines Inc., New York, Lawson-Hemphill, Swansea, Ma, Messmer Büchel BV, Netherlands, Lako Tool, Perrysburg, Ohio, Adamel Lhomargy, France, TMI Canada.
